

BUILDING A CLEAN ENERGY ECONOMY AND INVESTING IN INFRASTRUCTURE CAN CREATE **235,000 JOBS** IN OHIO

IT'S POSSIBLE:

Ohio can shift to clean energy and grow more jobs while ensuring no worker gets left behind. An investment of \$9 billion per year – \$19 billion in private investments – would create 235,000 jobs in Ohio and **bring our state's unemployment down to just 4%.**

MODERNIZING THE GRID: 149,860 JOBS

A federal investment of **\$2.9 billion** per year creates jobs in building retrofits, solar, onshore wind, bioenergy, geothermal, small-scale hydro, broadband, and electric grid updates.

SUSTAINABLE TRANSPORTATION: 12,533 JOBS

A federal investment of **\$138 million** per year creates jobs in public transportation expansion/upgrades, including rail and a high efficiency automobile fleet.

CLEAN & EFFICIENT MANUFACTURING: 17,360 JOBS

A federal investment of **\$1.1 billion** per year creates jobs in industrial efficiency (combined heat and power) and manufacturing research and development.

REPAIRING THE DAMAGE & CARBON FARMING: 7,200 JOBS

An federal investment of **\$1 billion** per year create jobs in creates jobs in regenerative agriculture, farmland conservation, plugging oil & gas wells, land restoration (reclamation), and repairing dams/levees, gas pipelines, and wastewater and inland waterways.

A True Transition for Fossil Fuel Workers

An investment of \$100,000 per year in transition support for displaced workers, including pension guarantees, re-employment, wage insurance, retaining support, and relocation assistance.

Energy Cost Savings

The average Ohio household should be able to save **nearly 40 percent** on their overall annual energy bill.
